Aerospace Parts Manufacturer Insurance

Manufacturing & products - coverage overview, limitations and how to get a quote

OVERVIEW

Aircraft products need specialty aviation markets, and carriers look at which parts you make, whether they are flight-critical and your AS9100 controls.

WHAT'S COVERED

Aircraft products
Claims from parts that fail in flight.

Grounding liability
Loss when aircraft are grounded due to your part.

Machinery
CNC, inspection and testing equipment.

Customer property
Customer parts and materials in your care.

Business income
Lost income while production is stopped.

Good to know
Aircraft products liability is often placed separately from the general liability, so keep aerospace sales split out.
