Chemical Manufacturing Insurance

Manufacturing & products - coverage overview, limitations and how to get a quote

OVERVIEW

Chemical makers carry fire, pollution and products exposure, and carriers look at the materials handled, reaction processes and environmental controls.

WHAT'S COVERED

Products liability
Injury or damage from chemicals you make or sell.

Pollution liability
Spills and releases from your plant.

Property and stock
Plant, tanks, raw materials and finished goods.

Equipment breakdown
Reactors, boilers and pressure vessels.

Transit
Chemicals shipped to customers.

Good to know
