Plastics Insurance

Manufacturing & products - coverage overview, limitations and how to get a quote

OVERVIEW

Plastics plants carry a heavy fire load and products exposure, and carriers look at the process used, raw material storage and end uses of the parts.

WHAT'S COVERED

Products liability
Claims from plastic parts that crack, leak or fail.

Property and stock
Building, resin, molds and finished goods.

Molds and dies
Your molds and customer-owned tooling.

Equipment breakdown
Injection presses, extruders and chillers.

Business income
Lost income after a fire or press failure.

Good to know
High-piled resin and foam drive fire rates, so sprinklers designed for plastics storage make a big difference.
